We are partnering with Submarine World Class

3 Years Strategy: Interlink Telecom Co., Ltd

Extensive Expanding Nationwide Network

Catching the trend by providing service to support 3G and Digital TV and all other new trends came across

3 Years Strategy: Interlink Telecom Co., Ltd

Catch Up the Trend of Convergence of Multimedia and Service

Provide the best Reliability Network and One of the Kind Customer Service

Network Progress

As of Today: Nationwide Coverage with 60+ Provinces For example, Chiangmai, Hat yai, Phuket, Nongkhai, Ubon Ratchathani, Rayong

2013 Strategy: Interlink Telecom Co., Ltd

Plan and Already Implement

2013

Increase capital from 100Mb to 300Mb

- Core backbone Complete
- Strong Fiber Optic Route in BKK Area with coverage of more most of Business Building
- Finish DWDM for Eastern of Thailand
- Finish DWDM for Southern of Thailand
- Start Implement DWDM for other part of Thailand
- Provide Core Backbone to at least 1 main provider
- Obtain IPLC License and has International partner

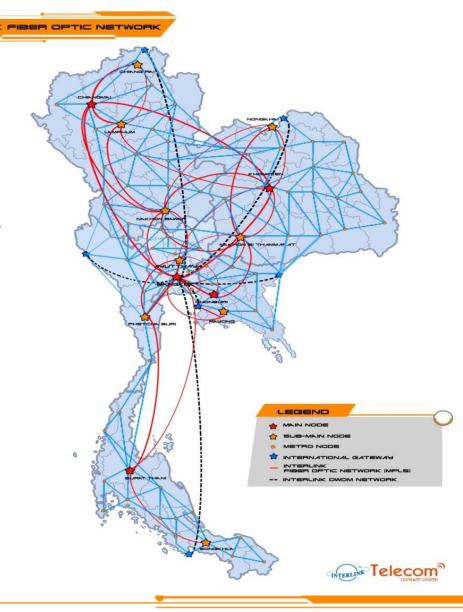

3 Years Strategy: Interlink Telecom Co., Ltd

2014

- Having International Business
- Catch up TV Digital
- Provide Core Backbone for more than one main providers
- Maintain and Upgrade for Higher Reliability

Data Center Business

Interlink Data Center:

- State-of-the-art data center, delivering highly secure and reliable IT infrastructure services.
- Designed for high-performance and energy efficiency.
- Aim to help customer better manage costs, improve operational performance and resiliency, as well as respond to business needs more quickly.

Facilities Facts:

- 1,800 square meter with
 - 1,200 square meter of Colocation space, provides the latest data center technologies with a full suite of managed service offerings (approximately 332 Racks Space).
 - 600 square meter customer service area.
 - Equivalent to Tier III, fully redundant infrastructure ensures no single point of failure and business continuity:
 - Reliable UPS system
 - Generator with sufficient backup time
 - **Dual power** feeds to every rack
 - Efficient-cooling system
 - Full-scale preparations for power outage and fire disaster.
 - Green data center equipped with efficient cooling facilities.
 - Security system installing the latest authentication methods.
 - Stable network achieved by using backbones and access lines **from Interlink Fiber Optic Network** and multiple carriers.
 - 24/7 operation and maintenance system
